Mini Traveler Laser

Mini notebook laser mouse

More value, higher performance

Using the same shape as the popular NS + Mini Traveler, the new version *Mini Traveler Laser* for notebooks performs outstanding wherever you work, with precision laser tracking in an ultra dazzling, portable shape. The advanced laser technology makes this mouse work reliably on most types of surfaces and offers much higher tracking power than regular optical mice.

You can switch the resolution of *Mini Traveler Laser* to 1600 or 800 dpi while pressing the right, left and middle buttons together. And what's really great is you don't need a driver to get started. *Mini Traveler Laser* is absolutely ideal for business travelers or people on the go.

Check your sales representative how quickly you can pick up this remarkable device.

▼ *Key features*
